

Our line of advanced medical cosmetics is based on two pillars: on the one hand, we have **experienced medical knowledge** in aesthetic medicine and surgery and on the other hand, we use a specific selection of ingredients with the **maximum purity**. The perfect combination of these two elements is what allows us to obtain the best results.

**Only the best active ingredients lead to optimal results.**

“In Greek mythology Chronos and Kairos held a constant battle. Chronos is the god of the time that passes and which leads us inevitably to our last days. Kairos, on the other hand, is the god of man’s internal time which is the time of dreams and of the spirit, the one that persistently brings us back to life. Similarly, our Kairos formula battles against the passing of time, revitalizing our skin from the inside.”

All **Medical Beauty** products are registered both in the Spanish Agency for Drugs and Health Care Products and in the Health and Consumption Council.

## 1.- CAVIAR MOISTURIZING CREAM

50ml

Retail price: 87€

Caviar is a very well appreciated product in cosmetics due to its high content in nutritious substances called *vittelus*, which are mainly made up by phospholipids and phosphoproteins that provide the amino acids that form collagen and elastine which are key to tissue growth. When these ingredients are applied onto the skin, the cellular regenerative process is stimulated providing the skin with nourishing, firming and protective principles.

**Medical Beauty** presents this extraordinary skin moisturizing treatment cream with caviar extract. Together with this active ingredient, it incorporates other natural ingredients such as collagen, elastin and bisabolol, which protect the skin against moisture loss, the harmful ultraviolet rays and the aging effects of free radicals. Contains Solar Protection Factor 10.

### Instructions for use:

Apply at any time on clean skin. The caviar extracts provide the skin with a new glow in a matter of seconds by moisturizing, nourishing, and smoothing it and providing it with firmness and energy.

## 2.- CAVIAR NUTRITIVE CREAM

50ml

Retail price: 93€

The addition of liposomes with caviar oil encapsulated in matrix spheres made of agar and alginic acid (obtained from several types of seaweed) prevents the oxidation of the product and guarantees its freshness and effectiveness when applied. The liposomes interact with the skin cells, delivering their content into them and so with allowing the perfect absorption of the encapsulated ingredients.

**Medical Beauty** discovers this exclusive anti-wrinkle formula, based on the caviar extract, which contains microencapsulated caviar liposomes. It also includes other natural ingredients (collagen, elastin, vitamin A and vitamin E), which nourish and activate cellular regeneration. Regular use reduces visible aging signs, improving skin texture and firmness.

### Instructions for use:

Apply every night on clean and tonified skin with a light massage that provides the necessary heat to dissolve the microencapsulated liposomes. You will immediately feel the results: it's a very nourishing, moisturizing and refirming cream that, due to its unique cellular complex, provides the skin with great luminosity.

### 3.- EPIDERMAL GROWTH FACTOR CREAM

50ml

Retail price: 125€

This cosmetic specialty has been developed by genetic engineering through the cellular cloning of the human Epidermal Growth Factor (EGF) which is the strongest mitogenic agent discovered so far, and therefore, the most efficient regenerator of facial wrinkles. It stimulates the proliferation of epithelial cells, interacts in the synthesis of proteins and fibroblasts, improves blood circulation, and increases the accumulation of collagen and the formation of blood vessels.

This revolutionary formula by **Medical Beauty** is based on epidermal growth factors and is capable of increasing skin thickness, returning its elasticity and firmness, diminishing the effects of cellular oxidation and reducing wrinkles. When applied regularly, it produces wonderful results in accelerating the healing of burn scars, in treating keloids, acne and stretch marks, in improving the result of surgical treatments and in favouring the consolidation of skin grafts. Also, it contains Q10 coenzyme liposomes, a potent antioxidant associated with cellular energy contribution, the activation and strengthening of the immune system and the delaying of the aging process. Recent clinical studies have demonstrated that there is a strong relationship between Q10 deficiency in the skin and its premature aging.

#### Instructions for use:

This moisturizing emulsion can be used at any time of the day or night. It must be applied on clean and dry skin and can be complemented with other more nourishing **Medical Beauty** cosmetic products if your skin requires it (rose hip oil, caviar nutritive cream). It can be used after microdermoabrasion, in acne or skin irritation cases, etc.

### 4.- REGENERATIVE DNA FILAMENT CREAM

50ml

Retail price: 108€

This very novel composition contains DNA filaments which provide an additional amount of nucleic acids to the skin. This way, by providing cellular protection against premature skin aging and increasing skin moisture, antioxidant power and regeneration, the DNA is protected against external aggressions.

**Medical Beauty** presents this extraordinary repairing emulsion, which fights the visible signs of age: wrinkles and aging. Due to its high DNA content, it produces a real regeneration of the skin connective tissue. Skin becomes smoother, more elastic and radiant, since this revitalizing cream acts in every skin layer, providing them with the necessary ingredients so that the skin itself can regenerate during the sleep.

#### Instructions for use:

Apply every day or night on clean skin. It is recommended for women over 40 and as shock treatment for younger skins in bad condition. After four weeks of constant use, a clear reduction of fine wrinkles can be observed.

When the skin presents areas with different pigmentation it is usually due to an alteration of the melanin metabolism (natural skin pigment that is responsible for the skin's tone and that protects it from UV rays and visible light). From an aesthetic point of view, it is very important to try to inhibit excessive skin color darkening. Kojic acid directly inhibits the activation of the enzyme responsible for melanin synthesis so with controlling the melanocytes' activity in the skin.

**Medical Beauty's** clarifying emulsion is designed to diminish the anti-aesthetic effects of skin spots, caused by pregnancy, contraceptive pills, freckles, menopause, excessive sun radiation, etc. It therefore presents a double use: as a treatment for a localized spot, or as regular use to diminish the skin's colour. Contains Solar Protection Factor 10, to reduce the effects of UV rays.

#### Instructions for use:

Apply a small quantity on clean skin every night and day and lightly massage until totally absorbed. Another more moisturizing cream can be applied half an hour later. It can also be combined with regenerating products such as the aloe vera gel or the rose hip oil (alternating their use). Clinical tests have proven a significant anti-spot action after two weeks of continuous use. It is highly recommendable to combine it with high solar protection filters to protect the treated area during exposure to UV rays, even if it is very little. Avoid contact with mucous membranes. Stop using if skin irritation appears.

## 1.- VITAMIN K SERUM

30ml

Retail price: 45€

Topical vitamin K is very effective at treating different kinds of traumatism. It is highly recommended to treat and prevent bruises and hematomas associated with plastic surgery procedures since it has properties that have a key role in the formation of blood clots and that avoid and eliminate problems derived from capillary fragility.

**Medical Beauty's** vitamin K serum is a powerful calming treatment, which clears and soothes skin reddening (cuperosis) and irritation, and restores the skin in a natural way, working well even in the treatment of the atopic dermatitis. Also, it has an excellent action in the treatment of dark circles caused by pigmentary deposits of diverse origin. Its use is highly recommended, both before any infiltration and any other type of aesthetic procedure, in order to prevent haematomas, and also after the intervention, to reduce them.

### Instructions for use:

Apply on dry and clean skin as many times as necessary on the areas to be treated. Spread evenly until product is totally absorbed and wait at least three hours before reapplying. Apply at least 3 hours before any aesthetic infiltration.

## 2.- PURE ROSE HIP OIL

30ml

Retail price: 48€

Rose hip oil is ideal for the treatment of ugly, hypertrophic or hyperchromic scars from traumatism, surgery or burns. It is also effective to soften expression lines, wrinkles and stretch marks and to depigmentate hyperpigmented skins. Due to its high concentration in essential fatty acids (linoleic, linolenic, oleic and palmitic), it has shown itself to be one of the most powerful skin regenerators since it acts on the synthesis of prostaglandins which are proteins associated with the cellular, tissue and collagen regeneration.

**Medical Beauty's** rose hip extra virgin oil, more than 99% pure, comes from Chile's Lake District. It is obtained by the first cold press system, without chemical agents that adulterate its purity or its properties. It is enriched with vitamin E, that prevents cellular oxidation and the formation of free radicals. Ideal for dermatologic treatments of anti-aesthetic scars, hypertrophic or hyperchromic, derived from traumatism, surgeries or burns.

### Instructions for use:

Apply daily on face and/or body on dry or damp skin (after showering) until totally absorbed. As a specific treatment cream, apply at least twice a day on dry skin. Spread the product on scars, burns, wrinkles and stretch marks with a soft massage. Due to its strong healing powers, it can be used to reinforce the action of any other cream. Add only 2 or 3 drops of pure rose hip oil directly to the other cream before applying it.

### 3.- ALOE VERA GEL

30ml

Retail price: 45€

Throughout human history, Aloe vera has been one of the most used plants for skin care since it not only hydrates and softens the skin but it is also a great cellular regenerator, healer and natural antiseptic. It has a powerful bactericidal and fungicidal activity, is anti-inflammatory, calms itching, increases the circulation of the treated area, decomposes and destroys dead tissues, favors cellular growth, and accelerates the cure of sores, wounds and all kinds of burns. It also gives good results in cases of psoriasis and eczematous eruptions. It is also an excellent filter against solar UV radiation and is useful to calm discomfort due to solar overexposure.

**Medical Beauty** offers this aloe vera concentrate: a gel with a calming effect, of rapid absorption, and specially indicated for sensitive skins. Our formula contains vitamin E liposomes as natural antioxidants which act preventing the oxidation of cells and the formation of free radicals. Contains *hamamelis* and *alchemilla* that synergetically strengthen the calming and regenerating effects of aloe.

#### Instructions for use:

Apply daily on dry or damp skin (after showering) on face and/or body until totally absorbed. In order to obtain a total and perfect skin finish, complementing its use with any other **Medical Beauty** cream or oil (caviar nourishing, caviar moisturizing, pure rose hip oil, DNA filaments, etc.) is recommended. When used as an eye contour cream, apply gently tapping into eye area until totally absorbed.

### 4.- VITAMIN C GEL

30ml

Retail price: 45€

The skin is exposed to the action of atmospheric oxygen, solar radiation and environmental pollution and suffers an excess formation of free radicals that are unstable and highly aggressive molecules which cause premature aging of the skin. According to several scientific studies, vitamin C is one of the most effective substances in stimulating the skin's defenses which avoid the formation of said free radicals.

**Medical Beauty's** refreshing gel uses a highly stabilized formula of ascorbic acid or vitamin C, providing a high protection from this unstable molecule against oxidation and its resulting degradation. Vitamin C, in combination with vitamin E, also stimulates the skin's own defences and slows down the aging process (since it prevents the formation of free radicals), acting as a highly protective and repairing gel. It also acts in the collagen's production synthesis.

#### Instructions for use:

Apply daily on dry or damp skin (after showering) on face and/or body until totally absorbed. In order to obtain a total and perfect skin finish, complementing its use with any other **Medical Beauty** cream or oil (caviar nourishing, caviar moisturizing, pure rose hip oil, DNA filaments, etc.) is recommended.

This facial and corporal non greasy emulsion, by **Medical Beauty**, is easily absorbed and the highly regenerative properties of the rose hip essential oil neutralize photoaging effects. It provides a high level of protection to delicate and sensitive skins exposed to UV radiation. Very moisturizing and decongestive, and can even be used to prevent photodermatosis (solar allergy). Its combination of long range solar filters limit the penetration of radiation creating a barrier that allows suntan and properly protects photosensitive areas, avoiding solar erythema and the appearance of skin spots. Water resistant and high solar protection: Solar Protection Factor 50.

#### Instructions for use:

Apply and spread evenly on the skin before sun exposure. Using this product should not urge you to undergo prolonged sun exposure. Reapply frequently especially after swimming and in prolonged sun exposure. Children and people with sensitive skins should specially avoid sun exposure between 12 and 16 hours.

This facial and corporal non greasy emulsion is easily absorbed and the highly regenerative properties of the rose hip essential oil neutralize photoaging effects. It provides a high level of protection to delicate and sensitive skins exposed to UV radiation. Very moisturizing and decongestive, and can even be used to prevent photodermatosis (solar allergy). Its combination of long range solar filters limit the penetration of radiation, creating a barrier that allows suntan and properly protects photosensitive areas, avoiding the solar erythema and the appearance of skin spots.

**Medical Beauty** introduces this practical coloured emulsion that combines the action of selected ultraviolet filters with the effect of its pigments on the epidermis. It has a double action, giving the skin a soft tone, while hydrating and protecting it against radiation. Water resistant and high solar protection: Solar Protection Factor 50.

### 1.- DEPIGMENTING PROGRAM

Retail price: 125€

This program is for those skin types that have a tendency to develop pigmentation. On the one hand, it is necessary to protect the skin correctly from the effects of UV rays and in order to avoid spots from appearing. On the other hand, spots that have already appeared on the skin will be treated locally.

- Sun protection cream with or without color
- Clarifying Cream
- Vitamin K Serum
- Gift: Medical Beauty Toiletry Bag

### 2.- MEN'S COSMETICS LINE

Retail price: 149€

Since men today also want to give their skin the best care, we present this program specifically designed to meet their needs.

- Vitamin C Gel
- Caviar Moisturizing Cream
- Aloe Vera Gel
- Gift: Medical Beauty Toiletry Bag

### 3.- YOUNG SKIN PROGRAM

Retail price: 149€

Although these skins do not require specific care, it's convenient to protect and moisturize them to maintain their vitality.

- Vitamin C Gel
- Caviar Moisturizing Cream
- Pure Rose Hip Oil
- Gift: Medical Beauty Toiletry Bag

### 4.- POST SURGERY PROGRAM

Retail price: 159€

This program is for those people who are going to undergo surgery and it is also convenient for after surgery treatment. It has been designed to reduce bruises, improve healing and burns, and to protect the skin during sun exposure when it is still especially sensitive.

- Sun protection cream with or without color
- Vitamin K Serum
- Regenerative DNA Filament Cream
- Gift: Medical Beauty Toiletry Bag

#### 5.- MATURE SKIN PROGRAM

Retail price: 249€

Formulated specifically for people over 40 years old and optimized for the specific needs of these skin types.

- Caviar Moisturizing Cream
- Caviar Nutritive Cream
- Regenerative DNA Filament Cream
- Gift: Medical Beauty Toiletry Bag

#### 6.- THREE STARS

Retail price: 275€

A combination of our best products which will provide you with surprising results. You'll notice a reduction of wrinkles and will obtain a firmer and more elastic skin.

- Epidermal Growth Factor Cream
- Caviar Nutritive Cream
- Regenerative DNA Filament Cream
- Gift: Medical Beauty Toiletry Bag
